Substance use has intergenerational consequences. Children of parents with substance use disorders are more than twice as likely to have an alcohol and/or drug use disorder themselves by young adulthood as compared with their peers.

We develop social emotional skills through the arts:

- teamwork
- goal setting
- empathy & understanding
- problem solving
- self-control
- sense of belonging
- self-esteem
- conflict-resolution
- leadership

This program is supported by public funds from NYC Councilman Joseph C Borelli and Speaker Corey Johnson in partnership with the Department of Health & Mental Hygiene and the Department of Cultural Affairs with support from Councilwoman Debi Rose and Councilman Steven Matteo.
